Prof. Mönkemüller

The ESGE symposium Co-Chair, Professor Mönkemüller, would like to highlight that the Quality in Endoscopy events are not just for doctors. *“In the field of endoscopy, doctors and nurses work together as part of a very close team. Therefore, Quality in Endoscopy symposia content is pertinent to the career development of the entire endoscopy team. I would like to encourage both nursing and doctor colleagues to attend the meeting, to learn from our great faculty and to have the opportunity to network with associates from Europe and beyond”.*

More information regarding the programme and faculty can be found [here](#), for further details regarding ESGE Individual Membership application and benefits, visit www.esge.com.

We look forward to welcoming you in Dublin!
