

DEAR COLLEAGUES,

We cordially invite you to the 9th Central European Gastroenterology Meeting (CEURGEM) which will take place in Budapest, Hungary on December 1-3, 2016.

The scientific programme will include many challenging and changing aspects regarding *Helicobacter pylori* infection, new endoscopic approaches, screening and surveillance of GI cancers, new biological treatment modalities in IBD, new mechanisms in functional GI disorders, gut microbiota, management of diverticular disease, treatment of Hepatitis C.

To bring you the latest findings and global perspectives a concomitant EAGEN Course will also take place with internationally renowned faculties.

The Congress and the Course is organised under the auspices of CEURGEM, EAGEN (European Society for Gastroenterology, Endoscopy and Nutrition) and the Hungarian Society of Gastroenterology.

We expect many participants from Central and Western European countries, thus we hope that this Meeting will represent a great opportunity for regional and European exchange of new scientific ideas in the field of gastroenterology.

It is a great honour to invite you to this exciting Meeting.

We hope to see you at CEURGEM-2016 in Budapest, Hungary!

- 11:45-13:00 Lunch**

13:00-14:30**GUT-SMALL BOWEL**

Chairs: *T. Milosavljevic, L. Kupcinskis, T. Wittmann*

- 13:00-13:15 Basic aspects of GI mucosal immune system
Marco Banic (Croatia)
- 13:15-13:30 Mechanisms and treatment of refractory celiac disease
Márk Juhász (Hungary)
- 13:30-13:45 New aspects of IBS
Dan Dumitrascu (Romania)
- 13:45-14:00 Intestinal microbiota, low FODMAP diet and FGIDs: any clue?
Pietro Portincasa (Italy)
- 14:00-14:15 Gut microbiota, obesity and cancer - an evidence based approach
Tomica Milosavljevic (Serbia)
- 14:15-14:30 Discussion
- 14:30-14:45 Coffee Break**

14:45-16:30**COLON**Chairs: *J. Regula, H. Hammer, I. Rácz*

- 14:45-15:00 Diminutive colorectal polyps: are gastroenterologists willing to implement the DISCARD strategy?
István Rácz (Hungary)
- 15:00-15:15 Learning from the best: how to improve the yield of screening colonoscopy?
Heinz Hammer (Austria)
- 15:15-15:30 Lessons from Polish colorectal cancer screening programme
Jaroslaw Regula (Poland)
- 15:30-15:45 Management of diverticular disease - current therapeutic challenges
András Taller (Hungary)
- 15:45-16:00 Rectal cancer: standard surgery and new approaches
Gábor István (Hungary)
- 16:00-16:15 Fecal transplantation: the beginning of the end or the end of the beginning?
Áron Vincze (Hungary)
- 16:15-16:30 Discussion

Social Program

08:30-11:00

LIVER

Chairs: *T. Seufferlein, P. Ferenczi, F. Szalay*

- 08:30-08:45 **Hepatitis C infection: availability of new treatment modalities in Hungary and Central-Europe**
Béla Hunyady (Hungary)
- 08:45-09:00 **Autoimmune and cholestatic liver diseases, or...NAFLD, or more specifically bile acid signaling in treatment of liver diseases and beyond**
Michael Trauner (Austria)
- 09:00-09:15 **Cholesterol gallstones: focusing on the association with non-alcoholic fatty liver disease**
Monica Acalovschi (Romania)
- 09:15-09:30 **New aspects of liver failure**
Peter Ferenci (Austria)
- 09:30-09:45 Discussion
- 09:45-10:00 Coffee Break**
- Chairs: *F. Farinati, I. Sporea, Z. Máthé*
