

Dear Members,

Mark your calendars!

We are pleased to contact you today to inform you of a new digital initiative from the European Society of Gastrointestinal Endoscopy (ESGE), **ESGE Connect 2020**. The event will be 100% online and 100% free taking place on Monday, September 21, 2020 at 08:00 CEST.

To make up for the fact that the annual ESGE endoscopy congress, ESGE Days 2020, could not take place, ESGE has launched a new interactive online meeting to provide a platform where our fellow endoscopists can meet, learn, discuss and debate on the latest updates in the field of endoscopy. The event will be focused on both basic and advanced procedures of GI endoscopy. Attendees will also have access to a series of satellite symposia and the opportunity to explore the virtual exhibition.

We encourage you all to follow ESGE's social media channels, Facebook (@esge.endoscopy) and Twitter (@ESGE_news) to stay tuned!

And don't forget to mark your calendars for March 25 – 27 for [ESGE Days 2021](#), where we will all meet again in person. Don't worry, ESGE is making sure that everyone is safe and sound and look forward to welcoming you in Berlin!
