09.35h – 09.45h	QUIZ = 10 summarizing questions from this session audience voting!	Moderators
09.45h – 09.55h	Q & A Session	Moderators

09.55h – 10.00h	Refreshment Break	
10.00h -11.00h	Session Stomach: Moderators: G. Hakobyan, J. Tack	
10.00h – 10.10h	CASE: Patient with dyspeptic symptoms with the roadmap to diagnosis	M Gemilyan
10.10h – 10.20h	CASE: H. pylori eradication: when is a probiotic therapy required?	F. Megraud
10.20h – 10.30h	LECTURE: Role of the stomach in the regulation of food intake	J. Tack
10.30h – 10.40h	LECTURE: Dietary and herbal therapy in management of functional dyspepsia	N. Pashinyan
10.40h – 10.50h	QUIZ = 10 summarizing questions from the stomach session. audience voting!	Moderators
10.50h – 11.00h	Q & A Session	Moderators
11.00h – 11.30	Refreshment Break	
11.30h - 12.20h	Session Pancreas: Moderators: E. Grigoryan, J. Kupcinkas	
11.30h – 11.40h	LECTURE: Nutritional support in acute pancreatitis	J. Kupcinkas
11.40h – 11.50h	LECTURE: Key aspects of treatment of pancreatitis	L. Hershenyi
11.50h – 12.00h	CASE: Patient with malabsorption	A. Gabrielyan
12.00h – 12.10h	CASE: Patient with refractory malabsorption	A. Hazoyan
12.10h – 12.20h	Q & A session	Moderators
12.20h - 12.35h	Refreshment Break	

12.35h - 13.20h	Session Modulation of the Gut Microbiome Moderators: A. Gasbarrini, N. Pashinyan	
12.35h – 12.45h	LECTURE: Nutritional advises to maintain eubiosis and restore dysbiosis	A. Gasbarrini
12.45h – 12.55h	LECTURE: Probiotic modulation of gut microbiota in health and disease	A. Kocharyan
12.55h – 13.05h	INTERACTIVE session on “Fecal microbiota transfer”	
12.55h – 13.00h	FMT in patient with relapsing C.diff.infection	T. Rokkas
13.00h – 13.05h	FMT in patient with ulcerative colitis	A. Gasbarrini
13.05h – 13.15h	Impact of bariatric surgery and interaction with gut microbiota in metabolic syndrome	L. Lundell
13.15h – 13.20h	Q & A Session	Moderators

13.20h - 13.45h Refreshment Break

13.45h - 14.55h	Session Liver : Moderators : H. Ghazinyan, T. Matysiak	
13.45h – 13.55h	LECTURE: Epidemics of hepatic diseases from a global perspective and with focus on Armenia	H. Ghazinyan
13.55h – 14.05h	CASE: Non Alcoholic Fatty Liver Disease (NASH): lifestyle, diet, drugs	T. Milosavljevic
14.05h – 14.15h	LECTURE: Management of liver cirrhosis and complications	D. Stimac
14.15h – 14.25h	LECTURE: Modulation of Gastrointestinal Microbiota in hepatic encephalopathy	P. Malfertheiner
14.25h – 14.35h	CASE: Hepatocellular cancer- a model case for interdisciplinarity	T. Matysiak
14.35h - 14.45h	QUIZ= 10 summarizing questions, audience voting!	Moderators
14.45h – 14.55h	Q & A Session	Modertors

14.55h - 15.10h	Refreshment Break	
15.10h - 16.10h	Session Lower GI: Moderators: N. Pashinyan, T. Matysiak	
15.10h – 15.20h	LECTURE :The case for and against low FODMAP	D. Stimac
15.20h – 15.30h	CASE: Patient with gluten intolerance or celiac disease ?	G. Khachatryan
15.30h – 15.40h	LECTURE: Nutritional and other advises for colorectal cancer prevention	T. Matysiak
15.40h – 15.50h	LECTURE: Severe constipation: From diet to targeted medical therapy	D. Dumitrascu
15.50h – 16.00h	PRO/CON: IBD – 5 Min Pro/Con Is there a place for dietary therapy ? conventional immunosuppression or biologicals ? Microbial or antimicrobial therapy to maintain remission ?	PRO: Margaryan, CON: Rokkas
16.00h – 16.10h	Q & A Session	Moderators
16.10h – 16.45h	Final Session: Moderator: T. Hakobyan, L. Lundell	
16.10h – 16.20h	The golden rules on how to best prepare and present lectures	L. Hershenyi
16.20h – 16.30h	WGO guidelines on 'diet & the gut'	T. Matysiak
16.30h – 16.40h	Q & A Session	
16.40h – 16.45h	Take Home Messages	M. Gemilyan
