

EU Educational Liver Care Webinar

15 October, 2020 | 17:00-19:00 CEST

"Low Contrast Media Examinations"

Prof. Fabrizio Calliada

University of Pavia
Neurological Institute
Mondino Pavia, Italy

"Shear Wave Elastography in Hepatic Applications"

Prof. Giovanna Ferraioli

University of Pavia
S. Matteo Hospital
Pavia, Italy

"High Framerate CEUS and Interventional Approaches"

MD. Francesco Giangregorio

School of Gastroenterology (SIUMB)
Guglielmo da Saliceto Hospital
Piacenza, Italy

"High Resolution Vascular Imaging for Diagnostic and Interventional Liver US"

Prof. Ernst-Michael Jung

Regensburg University Hospital
Regensburg, Germany

Dear Doctor,

We cordially invite you to join our lecture on October 15, 2020 conducted by a panel of well-known experts, who will share their latest learnings and practical experience on advanced ultrasound approaches in the diagnosis of liver disease. A live Q&A discussion will follow this webinar presentation.

Topics will be covered:

- Low Contrast Media Examinations
- Shear Wave Elastography in Hepatic Applications
- High Framerate CEUS and Interventional Approaches
- High Resolution Vascular Imaging for Diagnostic and Interventional Liver Ultrasound

Speaker Information:

Prof. Fabrizio Calliada

University of Pavia, Neurological Institute Mondino Foundation, Pavia, Italy

Prof. Giovanna Ferraioli

University of Pavia, S. Matteo Hospital, Pavia, Italy

MD. Francesco Giangregorio

School of Gastroenterology (SIUMB), Guglielmo da Saliceto Hospital, Piacenza, Italy

Prof. Ernst-Michael Jung

Regensburg University Hospital, Regensburg, Germany
